OUR 6-D APPROACH

DISCOVER

The process kickstarts with the discovery of a client query or a brief for an exhibition stand.

DEFINE

Post discovery, our team deep dives into the client brief to understand and define their specific requirements, event-specific guidelines and to anticipate any challenges that might occur.

DEVELOP

Once the client requirements are clearly-defined, we develop a strategy and plan of action for conceptualisation, design, delivery, and installation of your exhibition stand.

DESIGN

With the strategy in place, our design team works their magic to create an innovative, functional and captivating stand design that will make sure you stand out on the event floor.

DEPLOY

Once the design is locked, a 3D structure of the booth and a blueprint are handed over to the production team to begin construction of the booth.

DELIVER

The stand is safely shipped and installed under stringent supervision to deliver perfection as promised!

TESTIMONIALS

OPKO HEALTH SPAIN

**Francisca Quaye -
Export Assistant Interzoo**

Well I must say the team's coordination and communication could be seen in the delivery and design. The quality of materials used were excellent and they were all ready for on-site assistance!
Good job.

....

VOXEL

**VOXEL
ITB Berlin**

The entire team is really very professional and enthusiastic. They delivered our stand design with so much ease and on-time. They are very cooperative, willing to help even for small bits!

....

DURATRAY

**Steve Hall -
COO Intermat**

It was a smooth journey with seamless communication and coordination. The quality of construction and work was also clean. The entire on-site staff was extremely supportive.
